

Minnesota Horse Council Certified Stables Program

The Certified Stable Program was developed to encourage quality horse care in Minnesota. Its goal is to educate and improve the condition of horse facilities that choose to participate. When a stable applies for participation in the program, a MHC volunteer trained in the essentials of running a safe and sound horse business examines the stable. An examiner will visit each year for renewal. The examiner does not look for a deluxe facility or show quality horses. As long as the MHC standards are maintained, the establishment may advertise as an approved stable. Please see www.mnhorsecouncil.org for the most current updates.

Membership as a Certified Stable is renewed annually and payment is due each year by February 15th to ensure publication in the Minnesota Horse Expo program, along with any changes in your contact information.
